

FOCUS ELECTRICAL AND CONTROL SYSTEM ENGINEERS

ENGINEERING Ltd.

Course Description		Length	Days	Course Code	Cost per delegate	January				February				March				April				May				June			
						7	14	21	28	4	11	18	25	3	10	17	24	31	7	14	21	28	5	12	19	26	2	9	16
Siemens S7 Courses																													
Siemens S7	Fundamentals of Programming Systems using Win32 or Step	2	Mon-Tues	SI_FA1	€600.00																								
	S7 Maintenance Part 1 with Step7 Software	3	Mon-Wed	SI_S7MA1	€900.00									X													X		
	S7 Maintenance Part 2 with Step7 Software	2	Thurs-Fri	SI_S7MA1	€600.00										X												X		
	S7 Programming Level 1 using Step7	5	Mon-Fri	SI_S7SYS1	€1,350.00					X											X								
	S7 Programming Level 2 using Step7	5	Mon-Fri	SI_S7SYS2	€1,350.00																								
Siemens S5 Courses																													
Siemens S5	Fundamentals of Programming Systems using Step5	2	Mon-Tues	SI_FA1	€600.00																								
	S5 Maintenance Part 1 with Step7 Software	3	Mon-Wed	SI_S5MA1	€900.00						X										X								
	S5 Maintenance Part 2 with Step7 Software	2	Thurs-Fri	SI_S5MA2	€600.00						X										X								
	S5 Programming Level 1 using Step5	5	Mon-Fri	SI_S5SYS1	€1,350.00					X										X									
	S5 Programming Level 2 using Step5	5	Mon-Fri	SI_S5SYS2	€1,350.00																								
Siemens Texas Instruments APT Courses																													
Siemens TI	Fundamentals of Texas Instruments Systems using APT *	2																											
	TI Maintenance Part 1 with APT Software *	2																											
	TI Programming Level 1 using APT *	3																											
Siemens HMI Courses																													
HMI	HMIs TP/OP/MP Maintenance *	1		SI_HMA1																									
	HMIs TP/OP/MP Programming using Protools	2		SI_HPRO						X									X										
	HMIs TP/OP/MP Programming using WinCC *	2		SI_HWIN																									
Siemens MicroMaster Courses																													
Drives	MicroMaster 410/420/440 Maintenance *	1		SI_MM1																									
	MicroMaster 410/420/440 Setup & Networking *	2		SI_MSN1																									
Allen Bradley Courses																													
Rockwell	MicroLogic's Programming Level 1 using RSLogics 500 *	3		AB_MLSYS1																									
	PanelView Maintenance / Programming *	2		AB_PV																									

* Courses are scheduled based on demand

In addition to the scheduled courses we can customise the training course to be site specific. These courses can be held onsite or at our training centre.
